HYBRID OWNER CHECKLIST

PRE-ARRIVAL CHECKLIST

COMPLETE THIS LIST OF TASKS **BEFORE** THE ARRIVAL OF YOUR RENTER:

EXTERIOR CLEANING

If you were renting a car, you would want it nice and clean right? It will be the same with the renters, renting your RV. Make sure you take some time to clean the exterior of the RV. The cleaner the RV the more likely the renter will come back.

INTERIOR CLEANING

Just like the exterior, the inside of the RV should be like it was brand spanking new, checking into a dirty hotel can be unappealing. Make sure to give a thorough clean before your guests arrive.

TIRE INSPECTION

Tires are very important on the road, make sure to give every tire a thorough inspection. Never allow a rental to occur if there is an unresolved tire issue. Any tires in question should be replaced. The #1 cause of RV accidents is due to tire failure. You should check your tires for:

- Wear
- Tread Depth
- Bulges
- Cuts
- Air Pressure

ROUTINE MAINTENANCE

Like all vehicles, RVs run a lot smoother when they have routine maintenance done on them. Taking your rig to a dealership or service professional to have it serviced periodically is a good way to make sure your RV is road ready!

FLUID CHECK

Check all fluid levels in your RV (top up if necessary):

- Oil
- Generator Fluid
- Transmission Fluid
- Brake Fluid
- Radiator
- Windshield Washer Fluid

STEP 2: RV/TRAILER TRAINING

The purpose of the RV/trailer training is to educate your renter on how to use your RV. Make sure to be as thorough as possible, things that may seem obvious to you, will not be as obvious to your renters.

You are responsible for ensuring your renters have all the proper knowledge in operating your RV. **Please checkmark each step below once it is completed.**

STEP 3: SETUP/TAKEDOWN TRAINING

Once you have completed the main RV training, it is time to show the renter the elements involved in setting up and “taking down” camp with your RV or travel trailer. **If you do have a trailer, this will require, teaching them how to attach and detach the trailer.** Again be very thorough as it may be simple to you, but it won’t be very easy to the renter, especially if it is their first time renting.

Allow the renters to take part in the setting up and “takedown” process under close supervision so they fully understand and have the confidence to do it themselves when you are not there.

STEP 4: DRIVING LESSON

Take your renters on a quick (20-30min) driving lesson around your area. If there is going to be more than one primary driver make sure to allow everyone to have a turn at driving and towing the trailer.

Failing to provide a driving lesson will nullify your case in a disputed claim, so never let a renter take the RV without the test drive.

Check off to acknowledge that you have went over these elements during the test drive:
